TIME DELAY FOR P2 PROCESSING

The Vermont Service Center informed the Canadian Federation of Musicians (CFM) that they are approximately 26 days behind in processing petitions, which would technically mean that office is processing petitions received April 30th and earlier.

However, on the bright side, our files currently being approved were filed later than April 30th; our pending files were submitted in and around mid-May and later. (...)

What this 26 day processing time delay specifically means to P2's is that CFM will need at least the full 45 calendar days otherwise CFM will need to recommend premium processing [being an additional \$1,225 USD], unless the

musicians or their representatives have a US senator or congressional office secured in advance, and on standby for when the file is issued a receipt number enabling them to act upon the petition.

IF CFM should agree to process a petition which does not allow 45 calendar days to process, musicians will be filing at their own risk, again, unless they have a senator/congressional aid secured.
